Agro Cedrus SARL

Our organic carob-based products, super food and immunity boost, rich in minerals and vitamins are Lebanese, 100% organic, healthy, low in calories, high in fibers, gluten free, has no added sugar, no caffeine, no thrombin and no GMOs.

Agro Cedrus is a small Lebanese enterprise established in Menjez, working to develop a sustainable approach to organic farming through growing and producing new innovative healthy and tasty organic carob-based products such as Carob Molasses Syrup, Carob Kibbles and Carob Powder. Thus, our vision is to be the leading company in Lebanon producing organic carob-based products. Our main Values: Innovation, Sustainability, Teamwork.

Agro Cedrus has a direct social impact since the core business relied not only on a clear commitment to buy the carob yield from a cluster of 146 carob famers and assuring their income, but also to help farmers in implementing good farming practices and planting new fields of carob trees that have a huge benefit on the environment.

Agro Cedrus activities cover a large part of the supply chain of the organic Carob Molasses Syrup, Kibbles and Powder from farming, to harvesting, traceability, processing, packaging, storage, retail, product development and distribution. In addition, private label packing is offered for highly reputable names in the organic ecosystem.

Assortment:

Our organic Carob Molasses Syrup is packed in bottles or jars of 400g or 800g and our Organic Carob Kibbles and Carob powder is packed in bags of 200g and 500g.

Atibaia wine

ATIBAIA is the result of a family passion for wine and challenge to revive an ancient wine making region and to produce one of Lebanon's best wines. Batroun (the most upcoming wine region) has been known for exporting and producing wine for over 6000 years. Atibaia consist of several plots of land in the area purchased in 2005. The winery makes its home in a 17th century house in the mountains of Smar Jbeil, overviewing Batroun in the North of Lebanon.

Our wines became notorious in our local market. Today, we want to bring the best of Lebanon's wines to Europe. Lebanese wines have a good reputation already and our ambition is to continue doing so and showing the world that Lebanese wines can also be outstanding. Our philosophy is unique in comparison to all other wineries with a more direct approach and involvement of the family. We decided to continue working in that direction to make sure our approach is the reflection of our passion for wine.

Mr. David Massoud Managing Partner E: david.massoud@atibaiawine.com T: +9613792599

ATYAB - ZEIT BOULOS

Zeit Boulos is part of ATYAB company, which owns a selection of local brands. The company's strong and long experience permits it to control the entire manufacturing cycle of olive oil, from the olive tree in its groves to the bottle on the consumer's table. ATYAB currently produces a wide range of quality products from its modern factory in the city of Jounieh, north of Beirut, including: a wide variety of vinegars; pomegranate molasses; olives; pickles of many sorts; zaatar (thyme); sumac; and natural olive oil soaps.

The story goes from father to son: it was back in the early 1960s that Boulos Maroun revolutionized olive oil production in Lebanon by institutionalizing the bottling process and taking it to another level. An entrepreneur and innovator by nature, Boulos Maroun started packing olive oil in bottles and gallons, instead of the usual tins, to market it more efficiently to Lebanese households.

As the business grew, Boulos Maroun began manufacturing a superior Lebanese olive oil towards 1964, which would later become Zeit Boulos. What started as a revolutionary idea quickly became a family passion which was passed on from Boulos to his son, Tony. Thanks to the valuable experience of his father, Tony Maroun successfully expanded Zeit Boulos and turned it into Lebanon's leading producer of olive oil.

Zeit Boulos was awarded, on many occasions, the "Best National Extra Virgin Olive Oil" award, and was voted for several consecutive years, as Lebanon's "Product of the Year". It is widely regarded as a national treasure and as an ambassador of Lebanese cuisine and is a leading brand in the local market according to a number of market studies done in the last decade.

The new plant was designed as per the highest international standards to offer the ideal conditions for the production of premium products. It is equipped with the most sophisticated bottling and packaging machines, which allow the company to maintain the high quality of its products intended for local and international markets.

Bazco Group—Raw Bites

Raw Bites are healthy, delicious, everyday protein puff snack. We aim to impact the lifestyle of todays generation by reaching them with innovative and satisfying flavors. Free from all of kind's preservatives, artificial & processed sugars.

Assortment:

Raw Bites are air-popped puffs, are never baked or fried, are vegetarian, gluten-free, have zero artificial flavorings, preservatives, colorings, no added sugar, and are non-GMO. These puffs are packed with protein, good carbs, and good fat and made with unique ingredients. We even offer Kids Bites, a different yet similarly delicious formula adapted to the nutrition needs of children.

Raw Bites is an innovative, delicious, healthy, and nutritious snack.

- Its nutritious calories loaded with protein, good carbs & good fats made from whole food ingredients.
- It can be safely consumed by all the members of the family, "on the go" or as a meal replacement. All of the above might give our competition a head-start when it comes to comparing the "nutrition facts", having said that, we believe that eating clean, natural, free from preservatives and additives is much more important than getting our bodies exposed to artificial ingredients with long term side effects to have some short term gains like less calories and more protein.
- Our claims are accurately tested and put us in a leading position within our industry, highlighting Raw Bites as a one-of-a-kind certified and awarded product in the market. We are ISO Certified, FDA Complaint, NON-GMO Project Verified, and Voted Product of the Year 2021.

Del Libano S.A.L.

Our pasta is made from 100% Lebanese Durum Wheat with 13% protein, No additives, preservatives or coloring. We clean the wheat, mill it, mix it with pure water, extrude it, dry it slowly for 18 hours to maintain all nutrients, package it and ship it.

Our products are Lasagna, Tagliatelle, Spaghetti, Penne, Fusilli, Pipe Rigate, Vermicelli, and Integrale. Every product is packaged in a 500-grams bag or carton box (for Lasagna and Integrale only).

Pasta "del Libano" fulfils customer wants and needs by making available a product of high quality at affordable prices:

I Genuine: made of only durum wheat and spring mountain water

I Affordable: half the price of European brands

I Healthy: we have a total quality control process, and our children eat it

Tasty: It has the taste of real wheat, and is not rubbery

I Natural: our product has absolutely no additives, coloring or preservatives

Pasta "del Libano" has the following features:

Coarse: our pasta is not smooth, it's coarse to absorb the most amount of sauce and that enhances the flavor.

Rich in Fibers: when we mill the durum wheat, we use some of the outside bran that has all the fibers to get a highly digestible product that keeps you not hungry longer.

I Fresh: it takes around a week from the time we clean and mill the wheat till the time the customer buys it and cooks it, and that gives is a fresh taste if you compare it to any other brand.

Kanz SARL

KANZ is a social enterprise that empowers over 1000 women in 53 villages across Lebanon, producing the finest Lebanese terroir and gourmet products.

Our recipes combine the ancestral skills of Lebanese artisans with the creativity of renowned chefs, using seasonal, fresh and natural home-grown ingredients.

Every jar tells the story of a Lebanese home, with flavors inspired by our diverse culinary heritage. Kanz brings together food, traditions and narratives that weave our culture and craft our identity.

With all proceeds going to support Beit el Baraka's 226,000 vulnerable families of retirees and children, KANZ aims at achieving scalable and lasting change in Lebanon's rural areas by:

- 1. Providing sustainable and scalable solutions that tap into Lebanon's boundless agricultural opportunities
- 2. Transforming women in rural communities into breadwinning producers
- 3. Restoring a self-reliant and sustainable agri-food system that expands the growth potential of Lebanese lands
- 4. Bridging Lebanon with a strong worldwide network of consumers, stakeholders, and potential investors

Kanz is a labor of love that results in conscientious food. A cultural symbol from Lebanon.

Nature by Marc Beyrouthy - Made by Nature

We at Made by Nature are a team dedicated to serving small producers from local rural spaces and surrounding communities while aiming to achieve an enhanced and sustainable livelihood. Our concept consists of a collective space where heroes from Lebanon can gather to showcase their products and offer clientele a wide range of sustainable ecofriendly Lebanese products. Our space prioritizes the direct linking of producer with consumer and the building of trust within this community so that to arrive at constructing a solid and structured network.

The strength of Made by Nature are the people behind the company. Actually the founders are known bloggers, which rich history working in close cooperation with the biggest Lebanese woman led cooperatives Together, Nature by Marc Beyrouthy, Atayeb Al Rif (Rural Delights) Cooperative and NGNO use their social media presence to promote fairs, including NGNO YouTube channel; reaching up to a total of 100,000 views between stories, post and reels. Former videos also developed by Made by Nature and published on its YouTube channel have reached 5,000 to 10,000 views and interactions with a potential of reaching up to 20,000.

Parsare SARL - AYADINA

Ayadina was started back in 1996 by Madame Amale Harb (Sett Amale) as a hobby to perfect premium Lebanese Mouneh (Pantry) with a touch of art and love. She started by orders to family and friends and then developed a small business with the hope of bringing back her son who has left the country. Successfully, her son, Roy Harb, took over in 2010, investing in expanding Ayadina, and later in 2019, Roy's wife Nathalie Boueri joined the team. Building on Amale's legacy, Ayadina has positioned itself as a producer of hand-made, premium, nutritious, Lebanese pantry prepared according to mama's recipes targeting health-conscious consumers who wish to provide high value goods for themselves and their families. Ayadina's products stand out in terms of quality, presentation, variety, crunchiness, and manual production and packing by local women. As part of its social mission, Ayadina not only employs local women but also welcomes young students, as interns, to learn about production processes or to apply their knowledge in food safety, production, marketing, or even agricultural practices. Ayadina managed to create a network of high quality naturally and locally sourced and produced products' suppliers, working up-close and personal with each one of them and supporting in providing seedlings and other materials needed.

Assortment:

- Pickles
- Jams
- Sauces & Condiments
- Lebanese Spice Mixes

Ayadina is a tasteful and sensorial celebration of handcrafted traditional delicatesse, of the healthy and the natural. The brand name (Ayadina, meaning 'our hands' in Arabic) suggests the social, natural, and the home-made with love aspects of each product. It is a celebration of the hand-work of the community, from farmers, to pickers, cooks, packagers, distributors and so on. Ayadina is a sensory pleasure, for "Sett Amale", meaning "Lady Amale", the presentation of the items was as important as the quality of its ingredients and its taste. The brand's ethos has faithfully followed its founder's touch and is built around 'consciously' offering exceptional taste, crunchiness, and freshness presented in exceptional aesthetics of colors and assortments. Each and every product is made with the customer in mind.

Rechmaya distillery

It started generations ago, in Rechmaya, where a love of Nature first took root. In more recent times, it started like great stories often do: with an idea.

What if that love of Nature could be contained within a sip? What if the place that produced such serene summer afternoons, could also produce the only thing that could make them even better?

Chadi and Maya, owners of the brand, asked all these questions and found an answer: Rechmaya Distillery. A place for food, people, creativity, and cheerful conversation. **Oh, and gin. Gin was important too.**

JUN BOTANIC was their first artisanal gin launched in 2018, infused with the native Lebanese organic Juniper excelsa and 8 mingling locally – used botanicals. Short for Juniper, JUN embodies a complex character not quite like anything else.

JUN DRY followed in 2019, infused with juniper communis is crafted for real gin lovers, With its refined dry finish, JUN DRY blends very well to achieve a unique flavor in drinks.

We are artisanal Gin makers and we can produce 290 bottles a day.

Sheghel Emeh

Variety of lebanese mouneh products: Dairy products - jams - pickles... in addition to ready to eat dried Lebanese meals. All our products are handmade with natural ingredients and packed in glass jars and eco friendly paper bags

Since 2018, Sheghel Emeh started to offer homemade traditional "Mouneh" in an innovative way by introducing new flavors to the usual types in addition to preserving the traditional methods in manufacturing certain types, in order to satisfy the largest number of consumers. Our products are homemade and can be stored with no artificial preservatives added, which distinguishes them from the other products on the market and keeps them out of competition due to their quality, manufacturing method, and innovative types.

We offer a variety of innovative products that are not available in the market.

The Good Thymes

The Good Thymes is a Lebanese agricultural company that brings a fresh breath to traditional Lebanese savors through modern and inspired culinary creations, all based around the unequalled wild Lebanese thyme.

Assortment:

Zaatar mixes, Seasonings and Herbal tea.

Zaatar is a unique combination of herbs and spices that is specific to the middle eastern cuisine. The Blend consists most often of Oregano, sumac, toasted sesame and a pinch of salt. Other ingredients can be added to this savory spice.

We have unique Zaatar mixes, some with nuts, some with dried fruits and other with seeds. We give great importance to the quality of the Zaatar and we have innovated several product around Zaatar. Our products can be used in all Mediterranean delicacies which make them wanted by top chefs and restauranteurs as well as shop owners. Sprinkle it over Cheese or a salad, use it as a marinade for fish, meat and poultry, mix it with olive oil and dip in it with crackers or simply spread it with olive oil on a warm piece of bread.
