LIKE GOOD: I= Identical, S = Similar

“ I ” indicates that the domestic *model* chosen is identical to the export product; and

“ S ” indicates that the domestic product chosen is similar goods to the export product

“N/A” indicates “not applicable” - for products for which there are no comparable domestic products or there have been no sales to Canada of that product.

REASON:

Indicate the reason why there are no sales of domestic like goods for comparison with the model(s) shipped to Canada.

- where like goods are not produced for the domestic market, indicate “**for export only**”; and
- where there is another reason, indicate the reason.
